FGDP(UK) Yorkshire are delighted to announce the programme for 2015 Masterclass. Ever popular speakers Phil Ower and Ian Dunn will present a full day course on the modern management of Periodontal Disease and Implant Maintenance. The day will give delegates an update on periodontal disease and its management for the GDP; as well as an overview of how to manage the Implants that are now a part of every dentists’ patient base. How to clean, when to radiograph, how to repair, when to refer; in short all you need to know about the Implants in your practice. We are hoping for a really interesting and informative day to suit GDPs, DCPs and Foundation Dentists.
